BATCH of 2019

The day we met

Together, we grow.

Together, we make an impact.

Together, we prove what is possible.

I hold many wonderful memories with this batch. The best one was of sharing cake baked by the students of this batch . I still remember my demo in this class around two and half years back.I was supposed to teach a topic for 10 minutes. However, we got so engaged with each other that the class went on for almost an hour. Response of this batch has always been fantastic. Have a blessed life! May you all achieve success in whichever career you pursue. You'll be really missed! Stay in touch!

- Arun Bhalla

Dear batch of 2019, you will always remain special to me as you are the first batch of my career. Follow your dreams, follow your passion and believe in yourself ! We will always be with you whenever you need us.

- Neha Sharma

My dear batch of 2019, believe in your dream and have faith in your abilities. Do your best and don't worry about the result. Everything will fall in place and your dreams will come true.

- Leena Malhotra

Dear children, always be confident and work hard. You will definitely achieve your goal. I have thoroughly enjoyed teaching you. I pray to God for your bright future.

- Manjeet Kaur

Your roots in DIKSHANT have held you strong, built you into a fine person. Today a new shoot has emerged... where your future lies beyond. Best wishers for a wonderful life ahead.

- Chanda

Messages from your teachers

Trying to recall some memories of this batch, I can't think of any one memory to mention. There are several fond memories accumulated over the years while I saw them grow from V graders of Junior school , through adolescence and now graduating out in Grade XII. I can recall them participating in various school events- star gazing, writing workshops, Space conferences, Literature Festivals, taking interviews of authors- they were everywhere. Working hard to make Teachers Day special for their teachers, preparing stalls for Christmas fete, winning Inter School Competitions, they are a hard working bunch of students always striving to achieve excellence. One special thing about this batch was that they were always united, stood up for each other in all situations. Giving healthy competition in class, they could be seen playing together in ground whenever they had free time, pursuing their hobbies along with achieving academic excellence.

I wish you all to be happy always and I am sure you would succeed in whichever field you choose! All the best!
