

Pick and Speak Activity
Classes: UKG to Grade 2
Date: 22nd April 2025

“Great speakers are not born. They are made by practice.”

Dear Parents,

We are pleased to inform you that we are organizing a Pick and Speak Activity for students of UKG to Grade 2. This initiative aims to boost students' confidence and enhance their thinking and public speaking skills in an engaging and encouraging environment.

Activity Guidelines:

- Each student will randomly pick an age-appropriate topic related to the theme: Earth.
- The student will speak 3-4 lines describing the name of the topic, its physical appearance, and its relevance / use.
- We are practicing with the students during school hours.
- Parents are kindly requested to support and encourage their child to practice at home to build comfort and fluency.

Topics may include nature-related items like trees, animals, water, or recyclable materials such as cloth bags, or items depicting waste/pollution, etc. (based on age appropriateness).

Assessment Criteria: Students will be encouraged and appreciated for their efforts based on the following:

1. Confidence & Body Language – Eye contact, posture, and expression
2. Clarity & Fluency – Clear speech and correct pronunciation
3. Content Relevance – Speaking relevantly on the given topic

We look forward to your child's enthusiastic participation.
Please ensure your child is present on the day of the activity.

Warm regards,
